

U.S. Army Medical Command Expiring Contracts Report

This report uses information from the Federal Procurement Data System-Next Generation (FPDS-NG) that has been filtered through the Army Contracting Business Intelligence System (ACBIS). The ACBIS filtering is to remove incomplete data entries and facilitate report generation. The data source within ACBIS is the CARS (Contract Action Report Summary) Table. This report only includes those items reported as Definitive Contracts.

Data contained in this report are estimates only. The presence of a requirement in this report is not to be interpreted as a guarantee that the item or service will be reprocured. The absence of an item or service from this report is not to be interpreted as meaning that item or service will not be procured or reprocured at any time in the future.

The Medical Command's Health Care Acquisition Activity has recently reorganized its Regional Contracting Offices. This report does not reflect that reorganization because the new regional names are not yet reflected in the Federal Procurement Data System.

Questions or comments concerning the format of this report should be provided to

The Associate Director for Small Business
U.S. Army Medical Command
2107 17th Street, Suite 70
Fort Sam Houston, TX 78234-5070
